Contents of Volume 16

NUMBER 1 FEBRUARY 1985

Electronic and Vibrational Spectra of *N*-Heterocyclic Molecules of Biological Interest and Solvent Effect 1
R. K. GOEL AND (KM.) C. GUPTA

Effect of Dimerization on Raman Intensities: An SCF *Ab Initio* Study of $(HCl)_2$ 7
B. SILVI AND M. ALLAVENA

Analyse Vibrationnelle et Structurale en Série Aliphatique Saturée: VI—Spectres de Vibration de l'Acide Diéthylmalonique et de ses sels Alcalins en Solution Aqueuse 11
(Vibrational and Structural Analysis in Saturated Aliphatic Series: VI—Vibration Spectra of Diethylmalonic Acid and Its Potassium Salts in Aqueous Solution)
J. L. DELARBRE, L. MAURY AND L. BARDET

Raman Study of the Symmetric ν_1 Vibrational Mode of N_3^- and NO_3^- in Aqueous Solutions 22
K. J. DEAN AND G. R. WILKINSON

Analysis of the Resonance Raman Spectra of ^{13}C- and ^2H-Substituted Carotenoids 27
H. HAYASHI, S. SAITO AND M. TASUMI

Raman Spectra of the Arabinonucleosides ARA-A and ARA-C Compared with the Spectra of Adenosine and Cytidine 32
T. THEOPHANIDES, S. HANESSIAN, M. MANFAIT AND M. BERJOT

Etude par Microspectrometrie Raman de Composes Graphitiques Inseres par SO_3 40
(Study by Micro Raman Spectroscopy of Graphites Intercalated with SO_3)
M. LADJADJ, M. C. DHAMELINCOURT, P. DHAMELINCOURT AND P. VAST

Infrared, Raman and Inelastic Neutron Scattering Study of Phase Transitions in Trimethyloxosulphonium Iodide, $(CH_3)_3SOI$ 44
C. SOURISSEAU, M. BEE, A. DWORKIN AND H. JOBIC

Carbon Association of Surface-Enhanced Raman Scattering (SERS) by Pyridine on Gold Electrodes: A Raman and Auger Spectroscopic Study 57
T. P. MERNAGH, R. P. COONEY AND J. A. SPINK

Laser Microzone Damage in Surface-Enhanced Raman Scattering by Pyridine on Copper Electrodes 62
T. P. MERNAGH AND R. P. COONEY

Short Communication

Resonance CARS Spectrum of the Short-Lived Dimethyl Terephthalate Anion Radical 67
W. WERNCKE, H.-J. WEIGMANN, A. LAU, T. J. TSCHOL AND T. P. DAT

Dr Harold J. Bernstein 70

NUMBER 2 APRIL 1985

Hyper-Raman Spectra and Polariton–Vibration Resonances in Liquid C_2Cl_4 and PCl_3 71
V. N. DENISOV, B. N. MAVRIN, V. B. PODOBEDOV AND KH. E. STERIN

Raman Studies of Orientational Disorder in Crystals: the Hexamethylethane Plastic Phase, $T > T_c = 152$ K 79
H. GHARBI, J. L. SAUVAJOL, H. FONTAINE AND M. MORE

Raman and Infrared Spectra of Tetramethylcyclobutane-1,3-dithione and the Fully Deuteriated Derivative 90
H. F. SHURVELL, R. D. GORDON AND R. B. GIRLING

Vibrational Spectra of Adenine and Deuterium-Substituted Analogues 98
M. MAJOUBE

Excitation Profiles and Depolarization Ratios of Some Prominent Raman Lines in Oxyhaemoglobin and Ferrocytochrome *c* in the Pre-resonant and Resonant Region of the *Q*-band 111
R. SCHWEITZER-STENNER AND W. DREYBRODT

Raman Polarizabilities of the ν_2, ν_5 Bands of CD_3Cl 124
R. ESCRIBANO, M. GARCIA HERNÁNDEZ, M. MEJIAS AND S. BRODERSEN

Electronic, Infrared, Raman and Resonance Raman Spectra of some Hexahalodi(aquo)dimolybdate(II) Anions, $Mo_2X_6(H_2O)_2^{2-}$, with Quadruple Molybdenum–Molybdenum Bonds 128
V. K. CEYLAN, C. SOURISSEAU AND J. V. BRENCIC

Short Communication

Correction of the Low-Frequency Raman Spectra of Gaseous Formic and Acetic Acids to PDS Spectra 137
J. E. BERTIE, H. H. EYSEL, D. N. S. PERMANN AND D. H. KALANTAR

NUMBER 3 JUNE 1985

Raman Intensities of Propane in the Gas Phase 139
J. MARTIN

Structure Moléculaire des Dérivés Nitres Aromatiques: 5—Spectres de Vibration et Analyse par Coordonnées Normales du 1,3,5-Triamino-2,4,6-trinitrobenzène 143
(Molecular Structure of Aromatic Nitro Derivatives: 5—Vibration Spectra and Analysis by Normal Coordinate Treatment of 1,3,5-Triamino-2,4,6-trinitrobenzene)
G. VERGOTEN, G. FLEURY, M. BLAIN AND S. ODIOT

Phase Transition in Manganese and Zinc Fluorotitanate Hexahydrate and Hexadeuterate Systems Observed by Raman Spectroscopy 149
P. CHOUDHURY, B. GHOSH, M. B. PATEL AND H. D. BIST

Tuning Metal Island Films for Maximum Surface-Enhanced Raman Scattering 156
R. AROCA AND F. MARTIN

Extended Measurement and Assignment of Isotropic Raman Transitions in the ν_1 Region of $^{12}CD_4$ 163
J.-E. LOLCK, A. OWYOUNG AND P. ESHERICK

Orientation of $Ru(pyridine)_6(BF_4)_2$ at Silver Electrodes 171
J. A. CHAMBERS AND R. P. BUCK

Resonance Raman Spectroscopy of Alkyl Nitroxyl Radicals 174
J. E. BENNETT, W. E. L. GROSSMAN, R. E. HESTER AND P. M. KILLOUGH

Vibrational Spectra of Chlorocyclopropane 177
P. M. GREEN, C. J. WURREY AND V. F. KALASINSKY

Raman and Far Infrared Spectra of Solid Methyl Fluoride, CH_3F and CD_3F 185
O. S. BINBREK, A. ANDERSON AND B. H. TORRIE

Raman Spectrum of Gaseous Phosphaethyne (HCP) 190
V. F. KALASINSKY AND S. PECHSIRI

Surface-Enhanced Raman Scattering Spectra of Aqueous Silver Borohydride Sols of Pyridine and Deuterium-Containing Pyridines 193
H. D. STIDHAM AND S. M. HARRIS

Raman and Far Infrared Spectra of Crystalline Acetylene, C_2H_2 and C_2D_2 202
A. ANDERSON, B. ANDREWS AND B. H. TORRIE

Rotational Raman Optical Activity in Chiral Symmetric Tops 208
L. D. BARRON AND C. J. JOHNSTON

NUMBER 4 AUGUST 1985

Raman Spectra and Structures of the High- and Low-Temperature Phases in the Two-Dimensional Layer-Type Compound $(CH_3CH_2NH_3)_2SnCl_6$ 219
M. H. BEN GHOZLEN, A. DAOUD, Y. MLIK, H. POULET, M. LE POSTOLLEC AND N. TOUPRY

Normal-Coordinate Analysis of 5-Methyl-2-thiocytosine and its Oxygen Analogue and Assignments of the Raman and Infrared Bands 229
S. ARUNA AND G. SHANMUGAM

Resonance Raman Spectra of Poly(L-Lysine), Aromatic Amino Acids, L-Histidine and Native and Thermally Unfolded Ribonuclease A 235
L. CHINSKY, B. JOLLES, A. LAIGLE AND P. Y. TURPIN

Infrared and Raman Spectra of Trichloromethanesulphenyl Bromide and its Reactions with Some Inorganic Halides 242
M. R. MAZZIERI, C. O. DELLA VÉDOVA, E. H. CUTÍN, E. L. VARETTI AND P. J. AYMONINO

The Use of Compacted Metal Discs to Measure Raman Spectra 245
J. A. NIMMO, A. J. BOVILL, A. A. MCCONNELL AND W. E. SMITH

Resonance Raman Scattering in Dyes Derived from Azobenzene 251
R. S. CATALIOTTI, S. M. MURGIA, G. PALIANI, A. POLETTI AND M. Z. ZGIERSKI

The Analysis of Unresolved Raman Excitation Profiles: 2–Totally Symmetric Fundamentals and Overtones of Some Azo Dyes 258
R. S. CATALIOTTI, S. M. MURGIA, G. PALIANI, A. POLETTI AND M. Z. ZGIERSKI

Resonance Raman Spectra of Radical Cations of Bridged Diquaternary Salts of 2,2′-Bipyridine 265
D. J. BARKER, R. P. COONEY AND L. A. SUMMERS

Raman Spectra of Copper(I), Silver(I) and Gold(I) Cyanides in Aqueous Solutions of Sodium Thiosulphate 272
M. A. EL-HINNAWI, L. PETER AND B. MEYER

Measurement of the Intensity of Resonance Raman Bands of Aromatic Compounds in the Solid State by the Divided-Disc Method 280
I. TSUKAMOTO, H. LEE, H. UCHIDA AND K. MACHIDA

Forward and Partially Reflected Backward Scattering Measurement of Resonance Raman Intensities by the Divided-Disc Method 284
I. TSUKAMOTO AND K. MACHIDA

Analyse Vibrationnelle et Structurale en Série Aliphatique Saturée: 7—Spectres de Vibration de l'Acide Hydroxymalonique et de Ses Sels Alcalins en Solution Aqueuse 288
(Vibrational and Structural Analysis in Saturated Aliphatic Series: 7—Vibration Spectra of Hydroxymalonic Acid and Its Potassium Salts in Aqueous Solution)
J. L. DELARBRE, L. MAURY AND L. BARDET

NUMBER 5 OCTOBER 1985

Vibrational Spectrum and Normal Coordinate Analysis of $CX_3CO_2NX_4$ (X = H or D) 297
I. KANESAKA, H. TANBO, H. KAWAHARA AND K. KAWAI

Raman Studies of Phase Transitions in $Mg(ClO_4)_2 \cdot 6H_2O$ Crystal 303
A. AGARWAL, M. B. PATEL AND H. D. BIST

'Extra' Resonances in Non-Linear Raman Spectroscopy 308
P. P. KIRCHEVA AND S. D. SIMEONOV

Raman Spectroscopic Studies of Aqueous Tetramethylammonium Silicate Solutions 312
P. K. DUTTA AND D. C. SHIEH

Analysis of Two-Phonon Resonances in and Raman Spectroscopy of Ammonium Chloride 315
A. A. ANIKIEV, B. S. UMAROV AND J. F. SCOTT

The Resonance Raman Spectra of Some Cyanine Dyes 319
J.-P. YANG AND R. H. CALLENDER

$\Delta M = 3$ Spin-Flip Acceptor Scattering and Zero-Field Splittings 322
J. F. SCOTT AND M. A. HANDSCHY

Temperature Dependence of the Raman Spectrum of the Plastic Solid Carborane p-$C_2B_8H_{10}$: Investigation of the Phase Transitions, Orientational Disorder and the Behaviour of the So-Called 'Background' 326
S. S. BUKALOV AND L. A. LEITES

Raman Spectra and Oxygen-Related Absorption Bands in Pure Silica Core Fibres 330
W. CARVALHO, P. DUMAS, J. CORSET AND V. NEUMAN

Spectroscopic Studies of Explosives II—Detection of Nitro Compounds on Silica Gel and Glass with a Raman Microprobe 332
F. W. S. CARVER, D. P. WYNDHAM AND T. J. SINCLAIR

Resolution Enhancement in Spectroscopy by Maximum Entropy Fourier Self-Deconvolution, with Applications to Raman Spectra of Peptides and Proteins 337
F. NI AND H. A. SCHERAGA

Measurement of Stress in Diamond Anvils with Micro-Raman Spectroscopy 350
S. K. SHARMA, H. K. MAO, P. M. BELL AND J. A. XU

Short Communication

Internal Rotational Potential in α,α-Dichlorotoluene 353
T. SCHAEFER AND G. H. PENNER

NUMBER 6 DECEMBER 1985

Effect of Electrolytes on the Raman Bands of Dimethylformamide and Acetone 355
G. THYAGARAJAN, G. GURUNADHAM AND R. DHAMEJANI

Light Scattering in LiH Crystals with LO Phonon Emission 358
V. G. PLEKHANOV AND V. I. ALTUKHOV

Instrumental Advances in Raman Optical Activity 366
M. R. OBOODI, M. A. DAVIES, U. GUNNIA, M. B. BLACKBURN AND M. DIEM

Raman Microspectroscopy of LiDNA Fibres in Ethanol and Tert-Butanol 373
J. MUD, C. OTTO, F. F. M. de MUL AND J. GREVE

Isotropic Raman Band Shape and Vibrational Relaxation for Molecules in the Liquid State: A Critical Study of Some Band Shape Functions 377
K. FUJITA, T. FUKUDA, K. FUKUSHI AND M. KIMURA

Effect of the Damping Constant on Raman Excitation Profiles 386
S-Y. LEE AND K-S. CHOW

Hyper Rayleigh and Hyper Raman Scattering from Ammonium Chloride and Ammonium Bromide 398
M. J. FRENCH, R. J. B. HALL, D. A. LONG AND F. M. F. AL-RUBAIEY

Study of the Phase Transition of CsD_2PO_4 by Raman Scattering 407
M. AOKI, M. KASAHARA AND I. TATSUZAKI

Vibrational Study of Phase Transitions in $CH_3NH_3NO_3$ and $CH_3ND_3NO_3$ 412
M. MYLRAJAN AND T. K. K. SRINIVASAN

Raman Spectra of I_4O_9 Formed by the Reaction of Iodine with Ozone 424
S. SUNDER, J. C. WREN AND A. C. VIKIS

A Raman Spectroscopic Discrimination between the Sub-Gel Phase and the GIII Gel Phase of Aqueous Dipalmitoylphosphatidylcholine Bilayers 427
P. T. T. WONG, E. MUSHAYAKARARA AND H. H. MANTSCH

Raman Difference Spectroscopy via Backscattering from a Spinning Tube and from a Low-Temperature Tuning Fork 432
J. F. ENG, R. S. CZERNUSZEWICZ AND T. G. SPIRO

Vibrational Spectra and Symmetry of 3,3,6,6-Tetramethylcyclohexa-1,4-diene 438
C. E. SJØGREN, E. KLOSTER-JENSEN AND C. J. NIELSEN

Research Note

Anomalous Raman Polarization Observed on the Protonated Phenazine Dication in Concentrated Sulphuric Acid 445
H. KIHARA AND Y. GONDO
